Permaculture for Sustainable Food Systems

Danielle Wyman-Castellano

Danielle is George Mason University's (GMU) Manager of Outreach and Engagement for the Office of Sustainability. She is a Certified Permaculture Design Instructor and promotes certification courses and other sustainability initiatives for GMU. **Permaculture** creates sustainable and self-sufficient food ecosystems using agricultural and social designs observed in nature. These designs are easily adapted for home landscapes.

Mosquitoes vs. Pollinators: Controlling mosquitoes without harming people, pollinators or other critters

Kirsten Conrad Buhls

Kirsten is Virginia Cooperative Extension Agent, Agriculture and Natural Resources serving Arlington County and Alexandria City. She trains and supervises the efforts of 3 separate volunteer organizations- Master Gardeners of Northern Virginia, Tree Stewards of Arlington/Alexandria, and Arlington Regional Master Naturalists and promotes sustainable horticulture in our urban environment.
